The Desktop

Debian Desktop

Though it is not the latest up to date desktop environment, it still gives the most recent abilities for developers, admins and any kind of content makers. That way individuals and any kind of organizations can operate their business

sudo apt install

A large amount of binaries via apt install

snapcraft

Snap packages by Canonical team

Flathub

Flatpak community

Source Code

Still building the code is an option

Security Test

If you need security then you need source code and the control over server and all devices

Support

Support life ends ? You may fork the project !

01 The Idea

When the idea comes out, it should be shared with the community

02 hackathons

Hackathons are for both physical and virtual activities is good for practicing the ideas

03 Production

Production still needs the cycle of 01 and 02. Continuous penetration testing and development.

01 The Idea

Cloud is the place where we own our own network and store and share our ideas as streams.

03 Production

Production is not the end. It is just a beginning.

02 hackathons

Lab services for both on local machines or on cloud.

04 Collaboration

Collaboration is the key for idea, hackathons, and production. An endless cycle.
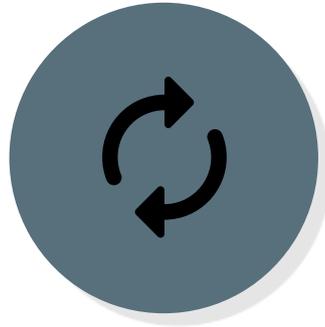

" I am because we are !

- Ubuntu

PSD UNIX

Flex

Flex development mentality
with Free Software concept

Focused

Focused on goals and vision
rather than minor issues

The Next

The Ai driven distribution

QB Networks &
Masscollabs Services &
PSD UNIX

We QB Networks & Masscollabs Services are leading to Software, Hardware and Science for the Internet Cyberspace with our own consciousness. We have our own roadmap and which is why we say we are a Free Software project. This is an open way to software and open infrastructures

PSD UNIX is the Next Generation UNIX for the new age
